

CRPTA

Engineered for safety.
Styled for modern spaces.

The CRPTA delivers reliable emergency lighting in a clean, fully recessed design built for modern commercial interiors. Its premium acrylic edge-lit faceplate provides clear, uniform illumination, while integrated emergency heads offer dependable lighting performance during power outages.

Engineered for long-term reliability and straightforward installation, the CRPTA ensures safe egress lighting without compromising the aesthetic of the space.

HIGH-END ACRYLIC RECESSED EDGE-LIT COMBO

INSTALLATION FLEXIBILITY

Even with its clean architectural appearance, CRPTA remains easy to install:

- Recessed mount (standard) for a modern aesthetic
- Electronics and faceplate mounted on a single chassis
- Galvanized steel backbox designed for pre-installation
- Adjustable hanger bars ideal for drywall ceilings or walls

EMERGENCY PERFORMANCE

260 lumens of reliable emergency illumination from dual high-output LED heads, fully adjustable for optimal coverage.

WHY CRPTA STANDS OUT

- **Exit Sign + Emergency Lighting in One**
Integrated high-output LED heads that deliver a combined 260 lumens of emergency illumination.
- **Bright & Even Acrylic Edge-Lit Illumination**
Ultra-bright LED light source ensures excellent clarity and uniformity across the faceplate.
- **Simple, Fast Installations**
Chassis-mounted electronics and a pre-installable backbox streamline on-site work.
- **Built to Perform in Demanding Conditions**
120 minutes of emergency backup from a long-life Ni-Cad battery.
