

SOCIAL DISTANCING

The social distancing signs are the best solution to remind citizen to follow COVID-19 rules. These illuminated signs will provide a visual reminder to ensure that employees and customers are following government guidelines, as well as providing a safer environment.

The social distancing fibers are available with two of AimLite's well-known products: RPST and RPALW. These modern signs are rigid, durable and lightweight and will adapt very well to decor with their choices of colors.

OPTIONS AND SPECIFICATIONS

OPTIONS

Social distancing signs can be combined with additional options as applications require. The AC Flasher option will cause the sign to illuminate and then darken at a rate of about once per second. For social distancing signs, the line cord option is highly recommended

LIGHT SOURCE

Social distancing signs utilize an LED light source.

OVERVIEW

The social distancing signs are available to replace the legend of two of AimLite signs: RPST and RPALW. Please add the suffix OP + the chosen sign number to the catalogue number. Contact your AimLite representative for any other special wording requirement.

Data is based upon tests performed in a controlled environment. Actual performance can vary depending on operating conditions. All products are subject to change or may be discontinued any time without notice.
